## Live Well A.P.S., Inc. — Who We Are

**We subscribe to the motto — In an environment of government “incentivized” regulations, superior business intelligence is the ONLY way to triumph.**

We are a contracted agency and facilitator for leading experts that specialize in the processes of MIPS (QPP & MACRA), RAF Compliance, Medicare CCM Program, Health Information Exchange, and Patient Outreach Optimization for financial ROI.

Together we support thousands of independent and hospital-based physicians & clinicians, multi-TIN, Medicare Advantage plan providers, and ACO and Advanced APM members. We deliver **Maximum Value** with vital CMS program guidance and the most effective and innovative clinical and non-clinical business solutions that improve compliance, reimbursement, and efficiency. In addition, streamline costs and reduce hassles.

## A Primary Care Collaborative Found that a Comprehensive Medicare CCM Program Can Lead to a 20% Reduction in Hospital Admissions for Patients with Chronic Conditions and Higher Revenue for Providers

**CMS’s mission for their Medicare CCM Program is to streamline collaboration between hospitals, physician groups, and providers to enhance patient outcomes and simplify care processes, ensuring those with chronic conditions receive the highest quality of care.**

The high cost of doing business has been met with inadequate increases in reimbursement by CMS and increasing administrative burden due to inappropriate commercial health insurer practices. These issues have created an environment of financial uncertainty.

There is a solution, CMS has expanded coverage for its Medicare CCM Program including broader eligibility criteria and introduced new billing codes that create new revenue opportunities for providers.

TINs employ and contract primary care physicians and provide services for commercial, traditional, ACO, and Medicare Advantage lives. But there are obstacles that have proven to be difficult to overcome:

- Staffing levels continue to be challenged, depleted, and costly.
- Gaps in Care are identified by EHRs and payor sources, but closing those gaps is challenging.
- CMS’s Medicare CCM Program has been created to address issues but TINs struggle to increase enrollment and demonstrate revenue gains.

So, to succeed, your Medicare CCM Program efforts must be tailored to the unique needs of your TIN, physician group, or individual providers.

Our **Medicare CCM Program Optimization** platform was designed to enhance the delivery of care across various specialties, including primary care, cardiology, pulmonology, and more.

The platform reduces Total Cost of Care, improves patient outcomes, increases efficiency, unlocks new revenue streams, and transforms your approach to Chronic Care; making it more accessible, proactive, personalized, patient-centered, and effective for the Medicare patients you serve.

It is offered on a Clinic-by-Clinic basis and tailored to your clinic's specific needs and requires very little workload and no additional staffing requirements.

### **A Must for Small Independent PCP's**

Being a primary care physician (PCP) in independent practice today means you are running ever faster (and never catching up) on filing more claims to offset the decreasing reimbursement that insurers know they can force on you. But you can increase your revenue and your ppm within a few months without seeing more patients while maintaining your independence and control of the way you practice.

### **Our Medicare CCM Program Mission**

Our Medicare CCM Program mission is to redefine Chronic Care Management by streamlining collaboration between hospitals, physician groups, and providers. The platform focuses on enhancing patient outcomes and simplifying care processes, ensuring those with chronic conditions receive the highest quality of care. By leveraging innovative solutions and fostering strong healthcare partnerships, we are committed to elevating the standards of chronic care, making it more accessible, effective, and patient-centered.

### **How The Platform Helps Your TIN**

- Improved Patient Care
- Revenue Enhancement
- Advanced Software
- Compliance & Quality Improvement

### **Eligible Patients**

Medicare CCM Program services are a Medicare-covered benefit for individuals with multiple chronic conditions that are expected to last at least 12-months and put the patient at significant health risk. \*Medicare Part B and many MA plans cover the Medicare CCM Program.

### **Multiple Chronic Conditions Include:**

- Arthritis
- Alzheimer's

- Transitional Care Management (TCM)
- Behavioral Health Integration (BHI)

### Patient Onboarding is Key

The Medicare CCM Program requires that patients:

- have two or more pre-defined chronic conditions; and
- have explicitly opted-in to the program.

Achieving this opt-in requires dedicated activity. If you have an organized outreach program, supporting technology, and dedicated staff you can expect to opt-in up to 40% of eligible patients. But TINs who only enroll patients as a part of office visits can only expect opt-in volumes closer to 4%.

### Your Complete Medicare CCM Program Partner

The platform team is the leader in CCM because it is revolutionizing the management of chronic health conditions by providing access to compassionate, advanced care and its services empower both providers and patients.

### The Platform Handles It All
