- PROVIDER ANALYTIC STATISTICS.
- SUPPORTS BILLING AND COMPLIANCE.
- BEST-IN-CLASS TECHNICAL GUIDANCE & SUPPORT.
- AND MORE.

## Live Well A.P.S., Inc. — Who We Are

**M-CCM is a major new initiative to every organization that goes down the path. In many ways, it is a lot like a business startup. Your best chance of optimizing revenues, improving patient care, and reducing total cost of care is to align yourself with a team experienced in big initiatives.**

We are a contracted agency, facilitator, and coordinator for a leading expert service provider that specializes in the processes and implementation of Medicare CCM compliance and optimization solutions for financial ROI.

Together, we deliver **Maximum Value** to physicians, hospital-based physicians & clinicians, multi-TIN organizations, and ACOs & Advanced APMs with vital CMS program guidance and the most effective and innovative Medicare CCM business solutions that improve patient care, care coordination, reimbursement, and efficiency. In addition, streamline costs and reduce hassles.

## Organizations That Currently Bill CPT 99490 and Its Related Codes Require a Software Platform that Integrates with Their EHR and Provides All the Necessary Billing Data

**The proprietary software-only option is the perfect solution because its advanced M-CCM software tools help to scale your M-CCM efforts upward. If you only have one Care Manager, and a small number of eligible patients, your staff can manage the process manually. But as patient volume grows, those manual processes create errors and bottlenecks that will constrain efficiency and the ability to reach all the patients who will benefit from the program.**

### Needed By Providers That Utilize Their EHR For M-CCM Management

Our Medicare CCM Program (M-CCM) Software platform is a proprietary system designed to enhance the delivery of care across various specialties, including primary care, cardiology, pulmonology, and more.

It reduces Total Cost of Care, improves patient outcomes, increases efficiency, unlocks new revenue streams, and transforms your approach to Chronic Care; making it more accessible, proactive, personalized, patient-centered, and effective for the Medicare patients you serve.

### Platform Mission

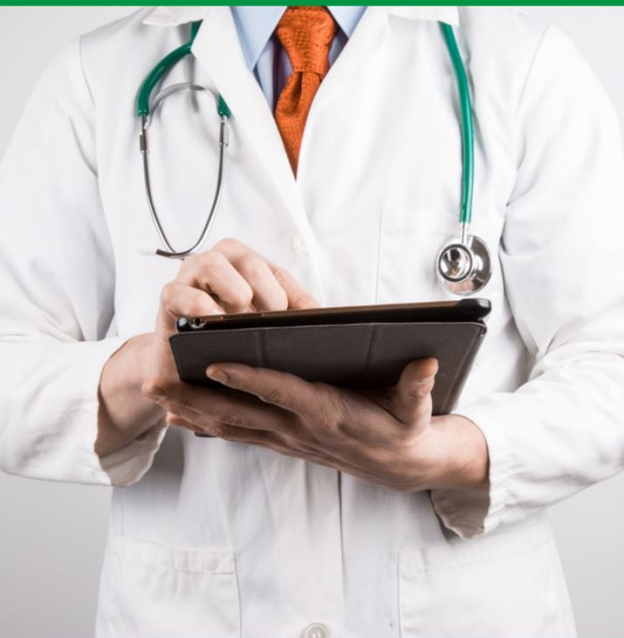

The mission of our M-CCM platform is to redefine Chronic Care Management by streamlining collaboration between hospitals, physician groups, and providers. The platform focuses on enhancing patient outcomes and simplifying care processes, ensuring those with chronic

## THE M-CCM SOFTWARE- ONLY OPTION IS SMART, SAFE & VITAL

conditions receive the highest quality of care. By leveraging innovative solutions and fostering strong healthcare partnerships, the platform is committed to elevating the standards of chronic care, making it more accessible, effective, and patient-centered.

### How Our Software Platform Helps Your Organization

#### Improves Patient Care

The cutting-edge software helps your organization implement effective M-CCM strategies, ensuring patients receive the continuous care they need.

#### Enhances Revenue

The M-CCM software maximizes the financial performance of your organization through a specialized focus on CPT 99490 and its related codes. Expertise and unparalleled technical guidance and support ensures that your organization will always remain at the forefront of the latest practices and reimbursement.

#### Improves Compliance & Quality

The software continuously updates in response to industry changes, which allows it to support meticulous documentation and care coordination practices, which is crucial for meeting quality metrics and improved patient outcomes.

#### Software Capabilities

##### Advanced & Proprietary

- Crafted by and for M-CCM professionals, it is engineered to simplify both patient care and billing practices, ensuring an efficient, seamless experience for healthcare providers and care teams. It integrates effortlessly into existing care routines, offering intuitive tools that streamline care management, and more..
- Automated record timing to ensure accurate billing code records.
- Built in calling system and patient portal.

##### Remote Patient Monitoring

- Comprehensive patient vitals dashboard.
- Device integrated patient mobile app that supports devices such as Fit-bit, Google Fit, iHealth, Withings, and more.
- Supports reliable protocols like HTTP(S), FTP(S), and TCP/IP

##### Behavioral Health Integration

- Integrated behavioral health screening assessments.
- Built-in logic automatically scores for alcoholism, smoking, depression, and behavioral health.
- CAGE, PACK, PHQ-2, PHQ-9, and GAD-2 screeners and provides recommendations.

##### Transactional Care Management

- Post-discharge patient services such referrals, medication reconciliation, and evaluation of diagnostic testing.

## THE M-CCM SOFTWARE- ONLY OPTION IS SMART, SAFE & VITAL

- MANAGES PATIENT ENGAGEMENT.
- CREATES EFFICIENT SCHEDULES.
- CREATES EFFICIENT CARE MANAGEMENT ACTIVITY.

- ORGANIZES CARE MANAGEMENT TEMPLATES.
- PROVIDER ANALYTIC STATISTICS.
- SUPPORTS BILLING AND COMPLIANCE.
- BEST-IN-CLASS TECHNICAL GUIDANCE & SUPPORT.
- AND MORE.

- TCM checklists to keep track of the crucial timelines and service needs.
- Streamline transitional care to reduce readmissions to hospitals and enhance results.

### Reporting, Billing & Analysis

Our software delivers detailed reports on patient progress, health outcomes, and program engagement. This allows providers to monitor the effectiveness of the care plan and adjust strategies as needed. These insights are crucial for optimizing patient care and enhancing health outcomes. Additionally, our technical team understands the importance of financial management for healthcare organizations. Therefore, the system includes robust billing reports that offer a clear view of the revenue generated from M-CCM services. These reports are designed to streamline the billing process, ensure accuracy, and support compliance with healthcare billing regulations.

### The Bottom Line

Our ***M-CCM Software-Only Option*** is the empowering solution that ensures your organization reduces the Cost of Care, maximizes CPT 99490 and related codes revenue, remains at the forefront of the latest practices and billing procedures, and succeed with unparalleled technology, guidance, and support.

Understanding the financial implications of M-CCM helps in making the decision on whether to invest in our software platform or stay the course with your EHR system—very easy.

### Reserve a Zoom Call with Us

In a 30-60-minute Zoom call, our technical team and your decision makers will talk about all of our software's benefits and features.

Take a moment to reserve your Zoom call with us on our website. On our Calendly page complete the required fields and when asked purpose of call, click: ***Medicare CCM - Software Only***.
